MEMORANDUM FOR: Chief, Intelligence School

SUBJECT: Discussion with CI Staff Official

on Foreign Visitor Briefings

25X1A9a

1. On 2 November, 1966 I received a call from 25X1A9a CI Staff, relative to the briefings we give to foreign intelligence officials brought to this country by the DDP area divisions.

- 2. The CI Staff seems to feel that we should not divulge classified material or show classified charts to these visitors. I explained to that these briefings are requested by the divisions themselves, they are tailormade, and that in each case we receive specific guidance from the divisions as to what they want us to cover.
- 3. My impression is that the CI Staff would like us to develop a prepared script for their approval to be used in these briefings. In my opinion this would be self-defeating in terms of DDP liaison objectives. In recent months we have been highly praised by senior officials in Africa and FE Divisions for briefings we have given to such people as Intelligence Bureau, and Director- 25x1x2

Agency. Both of these people were impressed with the frankness of the briefings (this frankness was desired by the division), and in the case of the first our briefings had been to some extent responsible for better cooperation between our people in Government. We have considerable evidence in writing and orally, of the area divisions' satisfaction with the way we are handling these briefings. Nor do I recall a single negative or qualifying statement from any of the DDP divisions during the period we have been performing the briefing function.

4. I have suggested to that we meet soon to discuss this problem but do not feel we should suspend discussion of classified information with any of these visitors unless so asked by the area divisions who are their sponsors.

5. Although this is mainly a problem to be ironed out within the DDP, OTR, which conducts these briefings, has a vested interest. I think, for example, we would look pretty silly if we gave a Georgetown University unclassified-type briefing to the chief of a foreign intelligence service. The visitor would be insulted, the area division most unhappy, and OTR's image would not be helped at all!
